1. Download and install AudiFab Apple Music Converter for Windows from [Download Center](#).
2. Click “Try It Free” of AudiFab Apple Music Converter for Windows to start downloading.
3. Double click the package and follow the instruction to finish the installation.

Main Interface

After launching AudiFab Apple Music Converter on PC, you will see the main interface like this:

Converting Interface

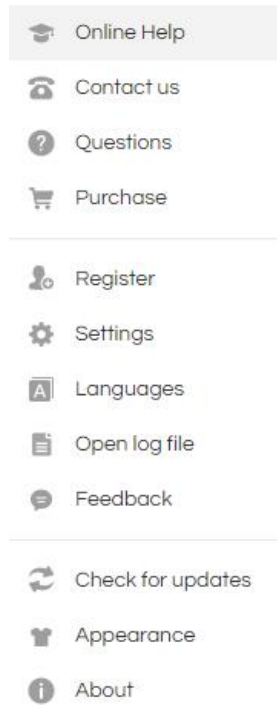

After clicking the **Convert** button, you will see the converting interface like this:

Title	Artist	Album	Duration	Progress
Eversleeping	Xandria	Ravenheart	03:40	✓
Seasons In The Sun	WestLife	Westlife (Japan Bonu...	04:08	✓
If I Let You Go" Radio Edit	WestLife	Unbreakable-The Gre...	03:41	42%
Soledad	WestLife	Coast To Coast	03:58	
My Love	WestLife	Coast To Coast	03:54	
There's a Place for Us	Victoria S	There's a Place for Us...	03:46	

Menu

When clicking the **Menu Settings** button  in the upper-right corner, you will see the menu list like this:

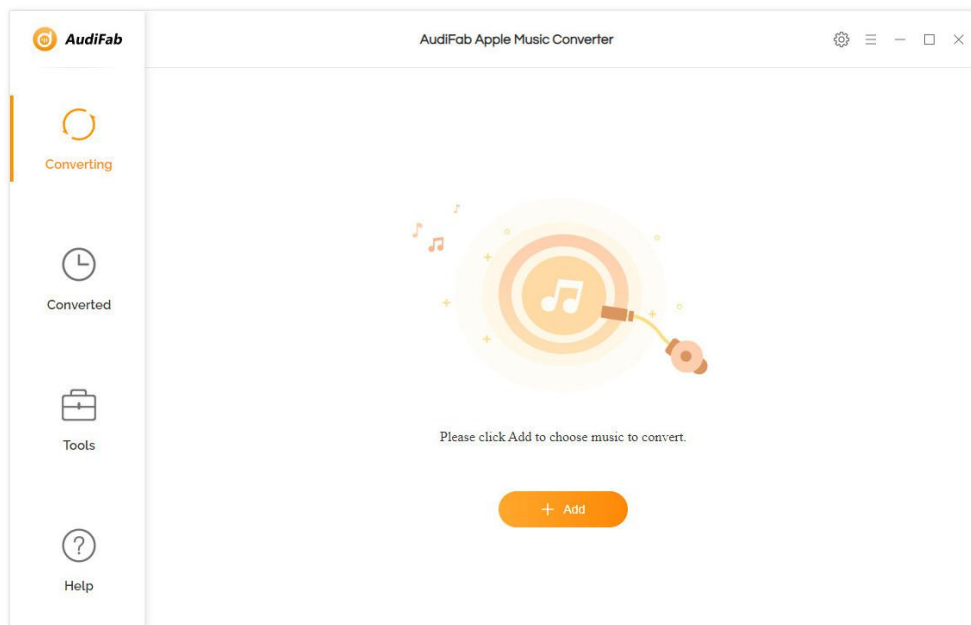

Tutorials

- Import Music Files
- Delete Music Files
- Choose Output Format
- Customize Output Directory
- Convert Audio Files
- Check Conversion History
- Edit ID3 Tags
- Convert Normal Audio
- Burn Apple Music to CD

Import Music Files

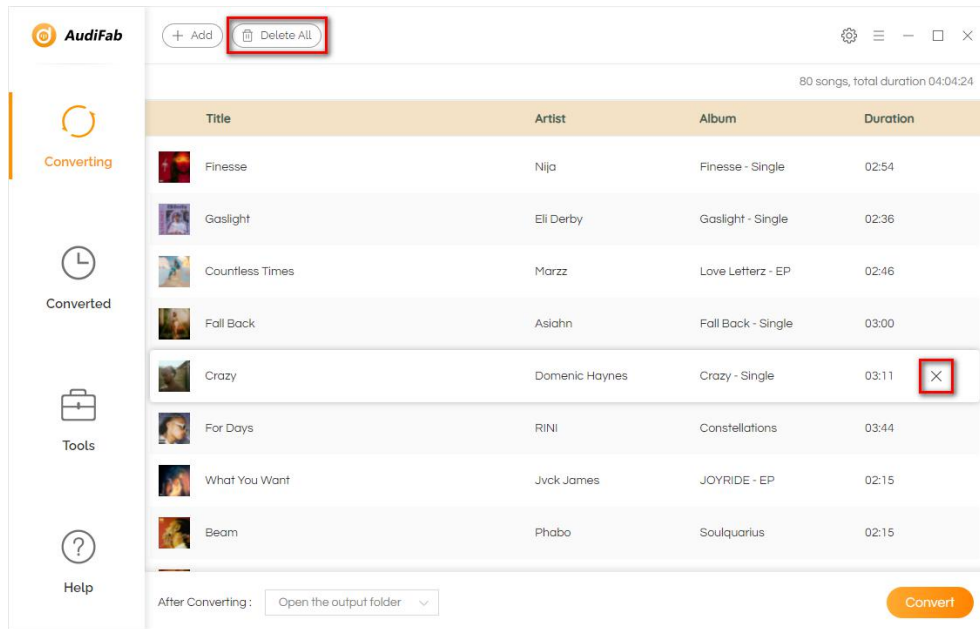

Step 1: Click the "Add" button, then you will see a pop-up window which will show you your iTunes/Music library and playlists. You can add Apple Music, iTunes M4P Music, Audible AA, AAX audiobooks, and podcasts as you want.

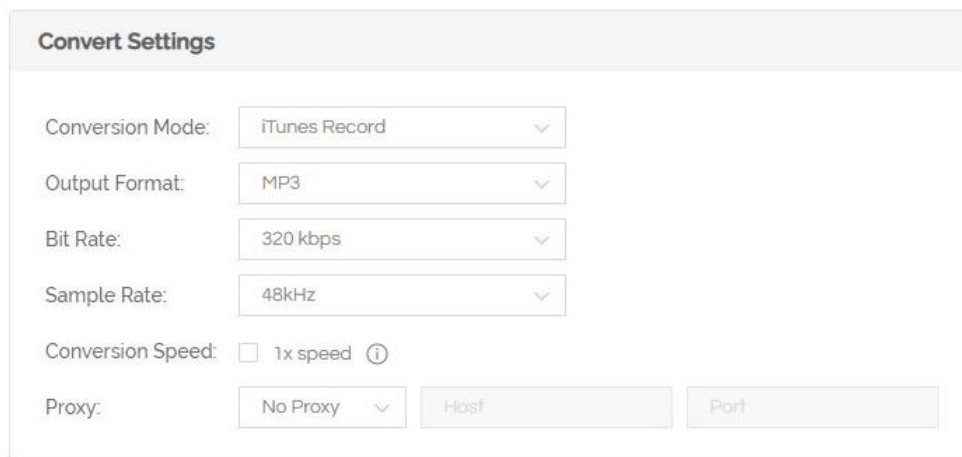

Delete Music Files

Hover your mouse to the file you want to delete at first. Then Click the “X” button to delete. If you want to delete all of the songs you choose, please click “Delete All” on the upper left corner.

Choose Output Format

Click the  button at the upper right corner to set the **Output Format** (MP3, WAV, FLAC, AAC, ALAC or AIFF), **Conversion Mode** (Intelligent Mode, iTunes Record, YouTube Download), etc. for your needs.

AudiFab Apple Music Converter for Windows

Customize Output Path

Click the  button on the upper right, then you can customize the output directory in the pop-up window.

Output Settings

Output Folder: C:\Users\ Documents\AudiFab Apple Music Converter ...

Output File Name: Track Number x Title x +

Output Organized: Artist / Album v ⓘ

Tips:

1. If you don't change the output path, the converted files will be saved in AudiFab default folder:
C:\Users\User Name\Documents\ AudiFab Apple Music Converter
2. You can click the "..." button to show the output path and change it.

AudiFab Apple Music Converter for Windows

Convert Apple Music

After adding the Audio files and customizing output path, please click the “**Convert**” button to start the conversion.

The screenshot shows the AudiFab application window. On the left is a sidebar with icons for 'Converting', 'Converted', 'Tools', and 'Help'. The main area displays a table of music items being converted. A progress bar at the top indicates 33% completion for 3 out of 6 items. The table lists the following items:

Title	Artist	Album	Duration	Progress
Eversleeping	Xandria	Ravenheart	03:40	✓
Seasons In The Sun	WestLife	Westlife (Japan Bonu...	04:06	✓
If I Let You Go" Radio Edit	WestLife	Unbreakable-The Gre...	03:41	42%
Soledad	WestLife	Coast To Coast	03:58	
My Love	WestLife	Coast To Coast	03:54	
There's a Place for Us	Victoria S	There's a Place for Us ...	03:46	

At the bottom of the window, there is a dropdown menu labeled 'After Converting:' with the option 'Open the output folder' selected, and an orange 'Abort' button.

Check Conversion History

When the conversion is done, you can click the **Converted** button on the left side to show up the records.

You can also check the converted files by directly going to the output folder you set.

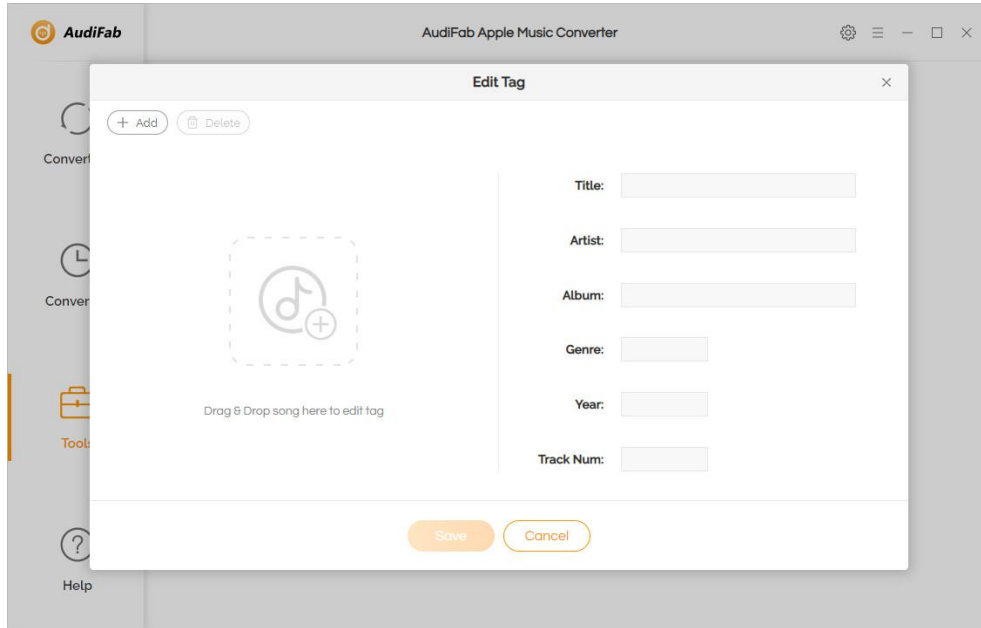

The screenshot shows the AudiFab application window. The left sidebar has four main sections: 'Converting' (with a circular arrow icon), 'Converted' (with a clock icon and highlighted in orange), 'Tools' (with a briefcase icon), and 'Help' (with a question mark icon). The main area is titled 'Burn CD' and shows '25 songs in the list, 0 selected.' Below this is a search bar and a table of converted songs. The table has columns for 'Title', 'Artist', 'Album', and 'Duration'. The first song is 'Count Me In' by 'THEY., Kiana Led' with a duration of 03:15. Other songs include 'Nothing Compares 2 U' by Sinéad O'Connor, 'Smooth (feat. Rob Thomas)' by Santana, 'Put Your Records On' by Ritt Momney, 'The Bones' by Maren Morris, 'The Closer I Get to You (wi...' by Luther Vandross, 'Down To One' by Luke Bryan, 'All To Me' by GIVÉON, and 'More Than Words' by Extreme.

	Title	Artist	Album	Duration

Edit ID3 Tags

AudiFab Apple Music Converter retains the original quality of Apple Music and keeps ID3 tags after conversion. You can also edit all the Metadata information by clicking "Tools" > "Edit Tag".

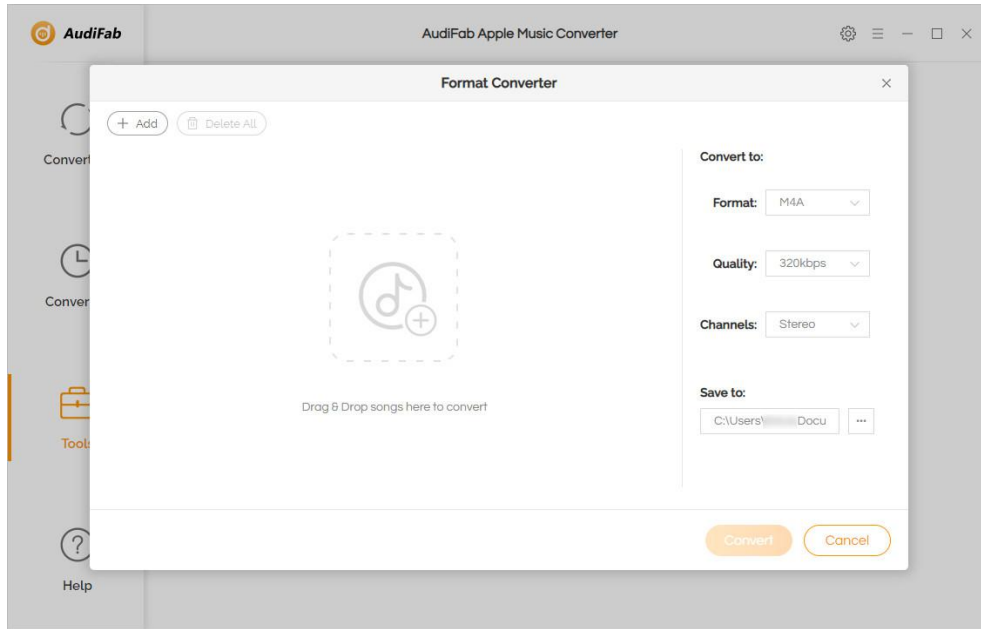

AudiFab Apple Music Converter for Windows

Convert Normal Audio

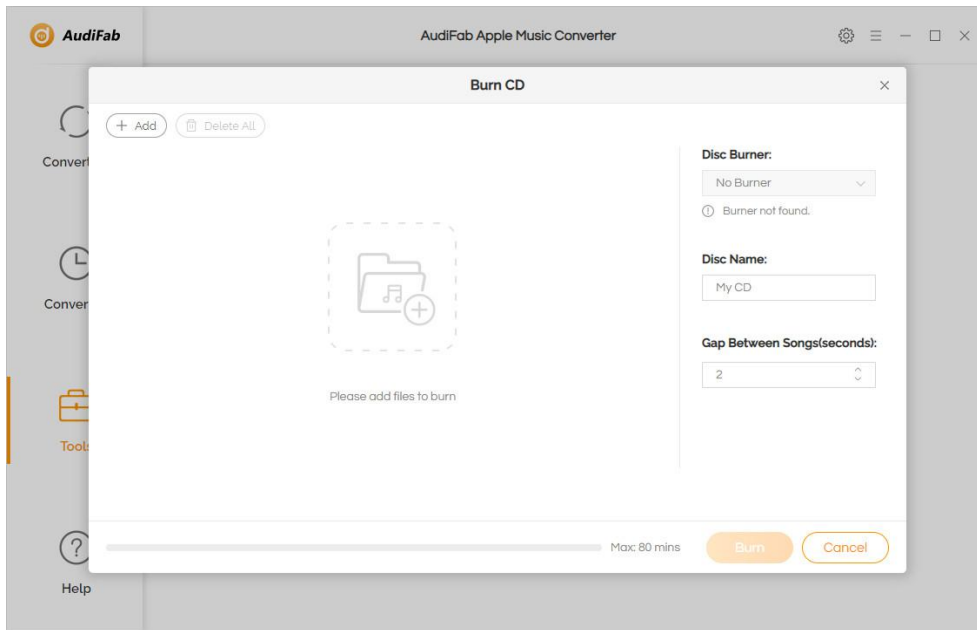

Apart from converting Apple Music, AudiFab Apple Music Converter also supports to **convert the common music to MP3/M4A/AAC/WAV/OGG/AIFF format**. Just open AudiFab, click "**Tools**" > "**Format Converter**", and then add the music from your computer to convert.

Burn Apple Music to CD

AudiFab Apple Music Converter also allows you to burn converted Apple Music songs or local audio files to CD directly. You can easily go to "**Tools > Burn CD**", then there will be a pop-up window prompting you to add music from your computer. Then all your songs will be burned into a CD after a few minutes.
